

# ~ Dancing Hands & Frolicking Voices ~

This intensive is designed for early childhood educators seeking to deepen their understanding and practice of supporting the young child with developmental movement, speech, singing in the mood of the fifth, and handwork all rooted in anthroposophy. We will immerse ourselves in the essence of the Ellersiek work and Spacial Dynamics® designed specifically to meet the needs of the young child and promote the well-being of the educator. Embodiment of this important and effective work will be our goal.

This session is a stand-alone course or can be part of a 2-year intensive program, email Lynn for more details.
