## TIPS FOR YOUR TIME ON THE FARM:

- ☞ Weather conditions and temperatures vary greatly even throughout the same day so bring layers - a jacket, rain gear, sun hat, fall & spring add warm layers, and wool socks
- ☞ Depending on weather conditions there could be mosquitos in spring/summer/fall so bring a bug repellent that works for you
- ☞ With high humidity in summer and winter's dryness, it's important to drink plenty of water so please bring a water bottle and a mug for hot drinks!
- ☞ Eurhythmy or other slippers for the workshop space are great – wool for spring and fall

♥ Musicians are encouraged to bring their instruments ♥
